PROFESSIONAL EXPERIENCE

MDSV CAPITAL

Palo Alto, CA

Head of Design

2023-Present

- Launched three projects 0 → 1; owning the brand, design system, UI, prototyping, and frontend development.
- Secured \$2.5M in pre-seed funding across the three projects through pitch deck creation and effective storytelling.

UNDERBELLY

Salt Lake City, UT

Product Design Lead

2022-2023

Product Designer

2021-2022

- Promoted to Design Lead, where I secured \$870K+ in design contracts for my company by spearheading 0-1 design sprints and collaborating with C-Suite stakeholders to make sure their product requirements were always met.
- Balanced the business needs of our design agency versus the time constraints of our design partners through careful communication.

SLIDE (CONTRACT)

Salt Lake City, UT

Product Designer

2023

- Led a week-long design sprint to rapidly validate our client's product assumptions about a self-served claims process for their insurance application.
- Delivered a fully functioning prototype that aligned with their business goals and user needs.
- Secured a \$150k contract to turn our prototype into a production-ready web application.
- Managed the project through its implementation and kept constant verbal & written communication with stakeholders to deliver a final product that reduced customer support need by 45%.
- Achieved an 89% completion rate for the new claim process, indicating that users found it intuitive and manageable.
- Reduced the average time to complete a claim from 20 minutes to just 8 minutes - a 60% improvement that significantly eased user frustration.
- Saw a 45% decrease in customer support calls related to the claim process. This not only indicated a more self-serviceable system but also translated to significant operational savings for Slide.

SQUARE (CONTRACT)

Salt Lake City, UT

Product Designer

2022

- Co-owned the creation of a new Email Design system in an effort to reduce phishing scams on Square sellers.
- Conducted weekly workshops with each department to understand design inconsistencies with their emails, and fulfill specific department needs while staying true to our design goal.
- Decreased reported phishing scams on Square sellers by 12.5% (measured three months after launch).
- Achieved a 70% reduction in financial losses due to email scams.
- Observed a 90% increase in seller confidence when it came to identifying legitimate Square emails.

FACEBOOK (CONTRACT)

Salt Lake City, UT

Product Designer

2021

- Designed new features for our Public Figures initiative in an effort to increase connections between Public Figure accounts and their audiences.
- Worked closely with a UX Researcher to set up proper A/B testing environments for my designs.
- After launch, we observed a 15% increase in overall engagement between Public Figures and their audiences, as well as a 25% increase in comments and reactions from their fans.

EDUCATION

GENERAL ASSEMBLY

Los Angeles, CA

UI/UX Design

2019

CALIFORNIA STATE UNIVERSITY, LOS ANGELES

Los Angeles, CA

Nutritional Science

2018

- Taught pediatric obesity management to children ages 5-12 years old.
- Co-founded a company shortly after, so I switched careers into UI/UX.
